

NORTH HALIFAX PARTNERSHIP

OUR VISION

A better future for all generations

OUR MISSION

To support individuals from cradle to the grave, and to carry out activities which relieve poverty and disadvantage, promote health and wellbeing, and strengthen communities

My wellbeing is achieved by reducing gadget use. I'd rather join groups and take time to go there.

Socialising with others and more time outside is the most important focus for my wellbeing.

At times it can feel overwhelming to think of all the problems the planet and humanity are facing. A small act like litter picking helps me feel I am making a direct difference which is empowering.

THEMES & PRIORITIES

- ### Strengthening Communities
- Community cohesion
 - Environment
 - Community Development
 - Volunteering
 - Community spaces

- ### Building Resilience
- Poverty relief
 - Work Support
 - Working with Partners

- ### Improving Outcomes
- Active Calderdale
 - Isolation and loneliness
 - Starting Well
 - Developing Well
 - Mental Health

- ### Growing our Charity
- Internal infrastructure
 - Staff wellbeing
 - Business continuity
 - Impact and evaluation

OBJECTIVES 2022-2023

Health & wellbeing isn't just about going to the doctor.

It's about our families and friends... the places we live and work and the things we do that make us feel like we are contributing to society.

- Build community cohesion and provide a counter narrative to community tension
- Develop existing and create new community spaces
- Continue to reduce our NHP Carbon footprint and encourage community action around climate change
- Increase the community voice and diversity of community leadership within our services

- Support individuals and families to face current economic, health and social challenges
- Supporting individuals to access training and gain skills and help people get into work
- Facilitate local partnership to ensure the integration of services
- Support the education catch up for children and young people, post COVID

- Provide universal services that target delivery to the most vulnerable
- Remove barriers and identify gaps in services and provision
- Use our role as community anchor to influence the development of local services to meet local needs
- Continue to increase awareness and discussion of health and wellbeing in communities

- Improve organisational infrastructure to enable better planning and delivery of services
- Continue to invest in our workforce wellbeing.
- Deliver on the outcomes in our NHP Strategic comms plan
- Demonstrate the difference our intervention makes

You have been really understanding about anxiety of school. Thank you for supporting.

I enjoyed learning new things. How we dump our waste shocked me.

We need to look after each other. We need a better sense of neighbourhood through shared spaces and walking or talking together.

Nursery activities and resources are educational and purposeful for a child's development. We really enjoy completing the home learning challenges as they are inclusive and current.
